

The graph displays the daily number of COVID-19 cases in the Netherlands. The x-axis is labeled with dates: 09-03-2020 and 02-06-2020. The y-axis has a horizontal line at 1000 cases. The background is color-coded: green for low case counts, yellow for medium, and red for high case counts. The data points are connected by a dashed line, and a solid line represents a trend or model fit. The graph shows a peak in cases around March 2020, followed by a decline and then a second, smaller peak in June 2020.

Taxa de ataque por  $10^5$  hab. (últimos 14 dias)
